Introduction

Dear Colleague,
 on behalf of The Italian Society of Psychosomatic Obstetrics and Gynaecology SIPGO we are pleased to host the 16th International Congress of the International Society of Psychosomatic Obstetrics and Gynecology in Venice, Italy.
 More and more the strict connections between body and mind are becoming clear, and neurosciences are providing day by day ever more information on the brain activities and on how this can affect the functions of all other organs.
 We have chosen the beautiful city of Venice as it is the place where art, music and history are marvellously blent together inspiring all sorts of emotions and sensations to all sensible people.
 Wandering around the enchanting narrow streets, the “calli”, the bridges and the canals will make everybody breath the unique atmosphere so much appreciated by all major writers and painters, providing inspiration of profound human sentiments of passion, love, melancholy and joy.
 It is our purpose to organize a major scientific event giving the chance to all participants to live and appreciate the Italian style in the marvellous environment of Venice and its fascinating Lagoon.

The Congress

The Congress

The Congress will be organized in:

- ❖ Plenary sessions
- ❖ Workshops
- ❖ Symposia organized by National Societies
- ❖ Special Symposia
- ❖ Sponsored symposia
- ❖ Oral presentations
- ❖ Poster session

Plenary sessions and Symposia will include four or five speakers each presenting his scientific research in approximately 20 minutes plus 5 minutes discussion. Affiliated Scientific Societies and any other Scientific Society operating in the field of Psychosomatic Obstetrics and Gynaecology, registering to the Congress a minimum of 25 participants, may propose an entire symposium at their own cost, suggesting titles, presentations, speakers and chairmen. The Scientific Committee will examine the proposals for inclusion in the scientific programme with the possibility to include one extra speaker or a chairman of its choice. [The deadline for submission is June 1st, 2010.](#) All plenary, oral and poster presentations of the Congress will be made available on-line.

Schedules of deadlines

June 1st, 2010 Submission of symposia proposal.

June 30th, 2010 Submission of abstracts.

July 30th, 2010 Registration at a reduced rate.

Abstract submission instructions and guidelines

- 1 **Deadline for abstract submission is June 30th, 2010.**
- 2 Each person is allowed to submit a maximum of two abstracts as presenting author: one oral presentation and one poster or, alternatively, two posters. There is no limit on the number of abstracts submitted as co-author.
- 3 Presenting authors will be notified whether their abstracts are accepted by **July 30th, 2010.** Further details on the schedule and instructions for oral and poster presentations will be sent to the presenting authors later.
- 4 **Authors, whose abstracts have been accepted, must register for the Congress and pay the registration fee by September 10th, 2010.**

[Failure to do so will result in exclusion from the programme and the Book of Abstracts.](#)

The Scientific Programme of the Congress will be available on the website www.ispog2010.com by September 30th, 2010.

Submission procedures

Abstracts can only be accepted using the on-line form available on www.ispog2010.com. A guideline will help you in filling out the form. Abstracts submitted via email or fax will not be accepted.

Special Poster Session with Venetian Cocktail

The Special Poster Session will take place on Friday October 29 from 18.45 to 20.15.

During the official Poster Session, Poster Authors should stand by their Posters for presentation and discussion.

CME Accreditation

The ISPOG 2010 scientific programme will be submitted for accreditation by:

- ❖ UEMS (European Union of Medical Specialists)
- ❖ ECM Credits for Italian Delegates

The Rialto Bridge

Congress Venue

Scuola Grande San Giovanni Evangelista

Originally founded in 1261, San Giovanni Evangelista is the second oldest scuola in Venice. Though scuola developed a primary meaning of “school”, in Venice these organisations retain their medieval Latin meaning of confraternities, social organisations founded on spiritual principles. Their main buildings were typically used as meeting and assembly halls, and for the distribution of charity.

A number of Venetian artists were commissioned to paint a number of canvasses for the school. Though many paintings have been moved to other locations the school still houses some original artwork

**Scuola Grande
San Giovanni Evangelista**

Scuola Grande di San Rocco

Scuola Grande di San Rocco was founded as a confraternity in 1478.

In 1485 mortal remains of the Patron Saint were acquired and in 1517 started the building of the actual seat of the school next to the church of San Rocco.

In 1564 the painter Tintoretto was commissioned decoration of the Scuola, of which the most renowned are those in the Sala dell'Albergo. All works present are by him, or his assistants: they were executed between 1564 and 1588.

**Scuola Grande
di San Rocco**

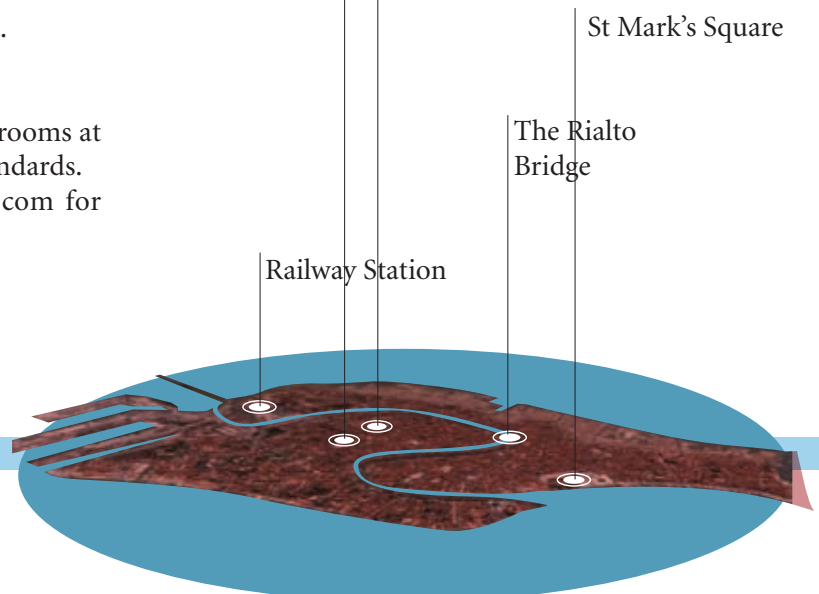

Both schools are located in the center of Venice near the railway station.

Official Language

English is the official language of the Congress.

Accommodation

For your convenience, we have reserved hotel rooms at various price levels and a great selection of standards. Please contact info@biomedicaltechnologies.com for more information.

Scientific Programme

Plenary Sessions

Post-traumatic stress disorder (ptsd after childbirth)

- ❖ Where does it come from? Origin and development (K. Wijma, S)
- ❖ How can we understand it? Theoretical models (S. Ayers, Sussex, UK)
- ❖ How and where do we meet it? Clinical appearance and prevalence (E-L. Ryding, S)
- ❖ What can professionals do? Clinical care and treatment (P. Slade, UK)

Caesarean section on demand

- ❖ Pros and Cons from a medical point of view (A. Tranquilli, I)
- ❖ Should we follow the patient's autonomy? (B. Maier, A)
- ❖ Women choice of mode of delivery: a matter of information (F. Facchinetti, I)
- ❖ Practical steps in counseling (H. Kentenich, D)

Beyond somatic obstetrical complications

- ❖ Psycho-social predictors of preterm delivery (C. Benedetto, I)
- ❖ Mother-baby intervention, a proven strategy in attachment between mothers and babies (N. Petilon NL)
- ❖ Premature delivery and stress (C. Maggioni, I)

Counselling for prenatal diagnosis

- ❖ Decision making after fetal pathology (A. Rohde, D)
- ❖ How to cope with uncertainty during pregnancy (C. Luchi, I)
- ❖ Prenatal counselling: Pregnant women's experiences and needs (S. Tschudin, CH)
- ❖ Parental reactions after the unexpected finding of a sex chromosomal abnormality in prenatal diagnostic testing (J. Pieters, NL)

Adaptive and mental disorders in obstetrics

- ❖ Depressive symptoms in Pregnancy and Puerperium (JF Navio, E)
- ❖ Pregnant women and mental illnesses (J. Alder, CH)
- ❖ Oxytocin spray for post-partum depression (R. Natale, I)
- ❖ Attachment needs and disruptors in pregnancy and puerperium (A. Graziottin, I)
- ❖ Early detection of psychopathology in pregnant women; a new strategy to prevent worse (M. van den Berg, NL)

Surgery design of female genitals

- ❖ "Designer Vagina": Consensual declaration in reference to intimate surgery and its psychosomatic aspects (B. Wimmer-Puchinger, A)
- ❖ Should we follow the patient's wish? (A. Borkenhagen, D)
- ❖ Labiohypertrophy and Labioplasic Surgery; Psychosomatic implications (H. Wienerroither, A)
- ❖ Guidelines for gynaecologists and surgeons (M. Paarlberg, NL)

"San Giovanni Evangelista"
Jacopo Guarana 1762,
Scuola Grande San Giovanni Evangelista

Scientific Programme

Different faces of violence. mechanisms of concealment and intervention

- ❖ Introduction: The role of concealment in various forms of violence (B. Wijma, Linköping, S)
- ❖ Sexual abuse in childhood – the aftermath and concealment (B. Leeners, CH)
- ❖ Abuse in health care – theories of concealment and intervention (B. Wijma, Linköping, S)
- ❖ Abuse in health care – results of an intervention model with Forum Theatre (K. Swahnberg, S)
- ❖ Abuse in health care – results of an intervention to reduce routine episiotomy in Brazil (M H Bastos, BR)
- ❖ Violence against women in war – a concealed and gendered weapon (S. V. Di Palma, I)

Brain and sex steroids: a matter of gender

- ❖ Gender, sexual orientation and brain structure (R. Swaab, NL)
- ❖ Hormones and sexuality (W. Weimar-Schultz, NL)
- ❖ Hormone therapy for Post Natal Depression and Pre Menstrual Depression (J. Studd, UK)
- ❖ PMS/PMDD and autonomic function (T. Matsumoto, JP)
- ❖ Menopause and HRT: effects on brain, mood and behaviour (A.R. Genazzani, I)

Complementary interventions in psychosomatic

- ❖ Kampo Medicine and female psychosomatics (K. Takamatsu, JP)
- ❖ Is psychoanalysis a complementary therapy? (C. Damonte Khoury, E)
- ❖ The Mine of Kryptonitis: adolescents sexual counselling and abuse (A.D. Turchetto, I)

Management of chronic pelvic pain

- ❖ Medical diagnostic and therapy (M. Korell, D)
- ❖ Endometriosis from a psychosomatic view (J. Maas, NL)
- ❖ Psychological diagnostic and therapy – guideline (F. Siedentopf, D)
- ❖ Control of pelvic pain and quality of life following treatment of symptomatic endometriosis (E. Piccione, I)
- ❖ Women in Pain; the course and diagnostics of chronic pelvic pain (T.M. Weijnenborg, NL)

Psychosomatic help to infertile couple: is it possible?

- ❖ Psychogenic sterility: a myth?!? (T. Wischmann, D)
- ❖ Fertility and Subjectivity. (R. León Ruiz, E)
- ❖ Effects of psychotherapy and counselling on pregnancy rate (K. Hämmerli, CH)
- ❖ Impact of infertility on couple sexuality: the psychosomatic burden (V. Valentino, I)

Above: "La Crocifissione" Tintoretto Jacopo 1565, Scuola Grande di San Rocco.
Left: "Diligentia" Jacopo Guarana 1762, Scuola Grande San Giovanni Evangelista

Hopeless and helpless? The importance of psychosocial care in gynaecologic cancer patients

- ❖ Psychoneuroimmunology and implications on cancer (V. Tschuschke, D)
- ❖ An integrated psycho-biomedical protocol in gynecologic cancer patients: the Venetian experience (T. Maggino, IT)
- ❖ Cancer and beyond: fertility issues and fertility preservation (S. Tschudin, CH)
- ❖ Coping after breast cancer (M. Neises and S. Geyer, D)

Psychobiology determinants of sex drive

- ❖ Hypoactive sexual disorder: relationship or hormones? (R.E. Nappi, I)
- ❖ Sexual function in female childhood cancer survivors (M. Traas, NL)
- ❖ Sex in later life: physical and psychological conditions (M. Lachovsky, F)
- ❖ Vulvodynia: psychosomatic and sexual aspects (S. Mimoun, F)

Migrants and their problems in obstetric and gynecology

- ❖ Female Genital Mutilation and their impact of female sexuality (L. Catania, I)
- ❖ Migrants and their problems in gynecology (T. Borde, D)
- ❖ Migrants and perinatal care: services and outcomes (I. Neri, I)
- ❖ Influence of migration and acculturation on menopause symptoms—results from Berlin and Istanbul (S. Boral, D)
- ❖ Multidisciplinary guideline on female circumcision in the Netherlands (C. Vos, NL)

Support to delivery today

- ❖ When and how emotional support helps the parturient (A. Morese, I)
- ❖ Fear of childbirth: evidence-based interventions in pregnancy (V. Basevi, I)
- ❖ Anesthetics in delivery, ideals and facts (M. Angulo Perea, E)

From left: "La Scuola dei Battuti" 1349 - "Consilium" Jacopo Guarana 1762, Scuola Grande San Giovanni Evangelista

Scientific Programme

Workshops

1 - Childbirth and Anxiety

Workshop leader: Professor K. Wijma (S)

Morning program "Fear of childbirth" three hours

- ❖ Introduction to the morning program
- ❖ Introduction "What happens when a woman fears the delivery?"
- ❖ A patient case
- ❖ Discussion: "How do you react to the story about this patient?"
- ❖ What do the concepts mean? "Fear of childbirth" (FOC), "Clinical Fear", and "Phobic Fear"

Pause

- ❖ What do we know about fear of childbirth from the research?
- ❖ How should we discover women with FOC before, during and after birth?
- ❖ How can we measure FOC? How to diagnose women with FOC?
- ❖ How can we treat women with FOC?
- ❖ Who should do what in patient care?
- ❖ Finishing discussion

Afternoon program "Childbirth and Post-traumatic-Stress Syndrome (PTSD)" three hours

- ❖ Introduction to the afternoon program
- ❖ Two patient cases.
- ❖ What is the Post-traumatic Stress Syndrome?
 - » Diagnostic and Statistical Manual of Mental Disorders 4th Ed. (DSM IV)
 - » Origin and development of the diagnosis for PTSD
 - » Main reaction pattern of patients with PTSD
 - » PTSD syndrome according to DSM IV
 - » Measurement of PTSD after childbirth: Traumatic Event Scale
 - » Co-morbidity to PTSD
 - » Risk factors for PTSD after childbirth
 - » PTSD among the anxiety syndromes according to DSM IV
- ❖ The clinical picture of women with PTSD after childbirth
- ❖ Discussion: "Have you met women with PTSD after childbirth?"; "How do you care for women with PTSD after childbirth?"

- ❖ PTSD: pre-partum - during the delivery – postpartum – and then?

Pause

- ❖ Postpartum PTSD – Fear of Childbirth – Depression: Is there a connection?
- ❖ Treatment of women with PTSD after childbirth
- ❖ Who should do what in patient care?
- ❖ Final discussion

2- Intervention against abuse in health care using forum theatre exercises

Workshop leader: A. Josephsson, drama pedagogue working with Forum Theatre (S)

Number of participants 25 (maximum)

This workshop will be organised in a way which is similar to the workshops carried through as an intervention programme for staff at a Swedish OB/GYN clinic. The aim of the intervention was to assist staff in finding ways not to accept that patients felt abused in health care.

The workshop contains practical exercises based on the Theatre of the Oppressed, created by A Boal and will be lead by drama pedagogue Agneta Josephsson. Professor Barbro Wijma and Associate Professor Katarina Swahnberg will give a short introduction to the subject "Abuse in health care".

The participants' own narratives of moral conflicts in patient-staff encounters will constitute the material that is worked on. Short scenes will be created and the group will try out many alternative ways of acting in those moral dilemmas where the narrator earlier had felt totally stuck.

Recommended preparatory reading: <http://www.ptoweb.org>

San Mark's square

Special Symposia

Violence against women influences childbirth Preliminary results of the BIDENS study in Belgium, Iceland, Denmark, Estonia, Norway and Sweden.

- ❖ Violence against women and its influence on childbirth - background and methodology of the BIDENS study (B. Schei, N)
- ❖ History of childhood and adult abuse in pregnant women in six European countries (M. Lukasse, N)
- ❖ Mental health in pregnant women with and without a history of abuse (A.-M. Wangel, S)
- ❖ Fear of childbirth and preference for caesarean section in pregnant women with and without a history of abuse (E. L. Ryding, S)
- ❖ Mode of delivery in women with and without a history of abuse (B. Schei, N)

DGPFG - German Society of Psychosomatic Obstetrics and Gynecology

- ❖ Is there a need for basic knowledge of sexual medicine for gynaecologists? (D. Richter)
- ❖ Influence of massage therapy on Sexual Functioning, Body image and Oxytocin levels in breast cancer patients (M. Listing)
- ❖ Sexuality and domestic violence. (M. Hauser)
- ❖ Psychosexual Counselling – what gynaecologists need to know! (U. Brandenburg)

SEGOP - Spanish Society of Psychosomatic Obstetrics and Gynecology Symposium (in Spanish)

- ❖ Breast cancer and sexuality (Sexualidad en pacientes con cancer de mama) (F. Criado)
- ❖ Up to dated Salvatierra's Gynaecologic Questionnaire (El Cuestionario Ginacológico de Salvatierra al día) (P. Quesada Lupiáñez)
- ❖ Psychological impact of HPV infection (Impacto psicológico de la infección por VPH y sus lesiones en la mujer) (R. C. Delgado)
- ❖ Fibromialgia and other chronic pains (Fibromialgia y Dolor Crónico) (S. Castellanos de Marcos)
- ❖ Metrorrhagia and Psychosomatics (Metrorragia y Psicósomática) (D. Lubian)

Preterm delivery Organized by Prof. C. Maggioni (I)

Age, old age and sexuality: different approaches, and different nationalities Organized by Prof. M. Lachowsky (F)

JSPOG - Japanese Society of Psychosomatic Obstetrics and Gynecology

Prominent futures of psychosomatics in Japan

- ❖ Aromatherapy in Japan (J. Imanishi)
- ❖ Various progestogens and female psychosomatics (H. Honjo)
- ❖ Comparison of various therapies for psychosomatics in Japan (K. Takamatsu)
- ❖ Biofeedback treatment for migraine female patients (M. Hashizume)

KSPOG - Korean Society of Psychosomatic Obstetrics and Gynecology

- ❖ Significance of health care in menopausal women: in view of psychosomatic medicine. (Choi, Hoon)
- ❖ Status of sexual dysfunction in Korean women (Kim, Tak)
- ❖ Psychological impacts of high-risk human papilloma virus in women with positive test (Kim, Jae Weon)
- ❖ Depression and anxiety in patients with gynecologic disease (Kim, Yun Hwan)

SFGOP - Société Française de Gynécologie et obstétrique Psicosomatique (en Français)

Chair: Sylvain Mimun

ISSPMD - International Society for the Study of Premenstrual Disorders

Premenstrual Disorders: An Update

Co-Chairs: Professor E. Eriksson (S) and Professor M. Steiner (CDN)

The symposium will cover the latest clinical and scientific knowledge base in this field. It will introduce the newly established International Society for the Study of Premenstrual Disorders (ISSPMD) and report on the highlights from the first consensus meeting of the society (Prof. O'Brien, UK). The ongoing controversy on the need for prospective vs. retrospective assessment of premenstrual symptoms will be discussed (Prof. M. Steiner, CDN) followed by an updated account of available treatment options (Prof. Pearlstein, USA). New findings on the role of 5-HT in PMDD-genetics as well as pharmacology will be presented (Prof. E. Eriksson, S) and lastly most recent fMRI data on the influence of sex steroids on amygdala activity and their relevance to this population will end the symposium (Prof. Fernandez, NL).

Topics

List of Topics

- ❖ Biological rhythms
- ❖ Body image
- ❖ Cancer treatment and quality of life
- ❖ Childbirth and anxiety
- ❖ Childbirth and depression
- ❖ Choice in contraception
- ❖ Behavioral effects in hormonal contraception
- ❖ Communicating/relating with pregnant women
- ❖ Complementary and alternative medicine: a modern psychosomatic track?
- ❖ Cross-cultural approach to menstrual-related disorders
- ❖ Psycho-biological vulnerability to menstrual activity
- ❖ Emotion and assisted reproduction
- ❖ Psycho-social aspects of infertility
- ❖ Female vulnerability to pathologies
- ❖ Gender and mental health
- ❖ Feto-neonatal origin of adult disorders: an issue of psychosomatics?
- ❖ Gynecologic counseling
- ❖ Labour pain: strategies of support and pain relief
- ❖ Pharmacological therapies and gender differences
- ❖ Post-traumatic stress related to childbirth
- ❖ Pregnancy - delivery - puerperium and sexuality
- ❖ Psychological support for the infertile couple
- ❖ Psychosomatic and the issue of demedicalization in Obstetrics and Gynecology
- ❖ Chronic pelvic pain: psychosomatic impact
